DAILY FASHION HINTS FROM VOGUE

SLIM VELVET PANELS.
faced with crepe, which shows a trifle on each side, may be effectively embroidered in the shade of chenille, which matches the crepe underfrock and wide mandarin sleeves. Bands of chenille fringe or monkey fur are a smart trimming and complete an unusually charming tea frock. For day-time wear is this smart frock of Canton crepe, which slips conveniently over the head and features the new wide sleeve set into a wide, deep armhole. An interesting use of crepe ribbon, on both frock and attached hip tunic, is a commendable attribute and suggests many attractive color combinations.

WANTS MORE WOMEN PREACHERS IN PULPITS

If There Were, There Would Be More Men in the Churches, Asserts Speaker.

(By Associated Press.)
CHICAGO, Sept. 15.—If there were more women preachers in the pulpits there would be more men in the churches, Miss Madeline Southard, president of the International Association of Women Preachers, told members of that organization at their convention here. Miss Southard accused men of "feminizing the church," and asserted that if there were more women preachers, more men would become interested in church work.

Quoting Frances Willard, she said: "Men have been preaching for 2,000 years and the large majority of their converts have been women. Suppose that women should share the preaching power, would not the majority of their converts be men?"
